

# Keep Warm Keep Well

A guide for people with disabilities  
or long-term health conditions

## Advice on...

- Getting financial help
- Saving energy and money
- Staying well and healthy

# About this booklet

This booklet has been produced by the Department of Health, in association with other partners.

It aims to help you maintain good health during winter and take advantage of the financial help and benefits available.

Inside, you'll find useful tips on heating your home effectively, a large section on financial support available, steps on preparing your home for the winter and advice on staying healthy.

## Your top five tips for keeping warm and well

These top tips are some of the best ways to keep your home warm, keep on top of your bills, and keep healthy. Some may seem obvious, but they could help you stay warmer throughout winter.

You'll find more top tips throughout this booklet.

### 1. Heat your home well

By setting your heating to the right temperature, (between 18–21°C or 64–70°F) you can still keep your home warm and lower your bills. If you feel cold at night, use a hot water bottle or electric blanket – but never use both together.

### 2. Get financial support

There are grants, benefits and sources of advice available to make your home more energy efficient, improve your heating or help with bills. It's worthwhile claiming all of the benefits you are entitled to.

### 3. Eat well

Food is a vital source of energy, which helps to keep your body warm. Try to make sure you have hot meals and drinks regularly throughout the day.

### 4. Get a flu jab

You can get a free flu jab from your GP if you have a long-term health condition.

### 5. Look after yourself and others

On cold days try to avoid going outside: however, if you do need to, remember to wrap up warm. If you have an older neighbour or relative, look out for them during winter to make sure they are safe and well.

# Top tips for heating your home effectively

Some energy-saving tips may seem obvious, but they can make a big difference when it comes to reducing your fuel bills.

## Top tips

- By setting your heating to the right temperature, you can keep your home warm and lower your bills. During the day set the thermostat to **21°C (70°F)**, and during the night set it to **18°C (64°F)**.
- Set your heating to come on just before you get up and switch off after you've gone to bed. If it's very cold, set your heating to come on earlier and turn off later rather than turning the thermostat up.
- If you can't heat all of the rooms you use, heat the living room throughout the day and your bedroom just before you go to bed. Remember to close curtains and shut doors to keep heat in the rooms you use most.

Heating your home safely is really important. Remember to get your heating system checked regularly, and keep your home well ventilated.

### Top tips

- If you have open fires make sure they are properly ventilated. Use safety guards and don't hang your washing near the open flames. If you use a fire or heater in your bedroom at night, always keep a window and door open.
- Use your electric blanket as instructed and get it tested every three years. Remember never to use an electric blanket and a hot water bottle together.
- Switch your appliances (such as televisions and microwaves) off rather than leaving them on standby. This will save money and energy and help you to Act On CO<sub>2</sub>.

For more information on energy efficiency call **0800 316 2805** (8am–6pm Mon–Fri and 9am–5pm Sat) or visit [www.warmfront.co.uk/energy-efficiency-advice.htm](http://www.warmfront.co.uk/energy-efficiency-advice.htm)

# Financial help to heat your home

If you're struggling financially to keep your home warm, you could get a grant to make your home more energy efficient, or repair or install a new heating system.

If you don't qualify for some benefits, you may qualify for others. And even if you've been turned down for benefits in the past, you may find that you now qualify for some means of support.

## Warm Front Scheme

Warm Front provides grants to help people on disability or income-related benefits pay for heating and insulation improvements. You may be eligible if:

- ☑ you own your own home or rent it from a private landlord; and
- ☑ you get a disability benefit or an income-related benefit (such as Disability Living Allowance, Attendance Allowance, Pension Credit, Housing Benefit or Council Tax Benefit); and
- ☑ you live in England.

For further information on benefit eligibility, please see the enclosed application form.

## How much could I get?

You may get grants for heating and insulation improvements for your home worth up to £2,700, or up to £4,000 if your home needs oil central heating. You can also get advice on energy efficiency to lower your energy bills.

### How to apply

- Fill in the application form included with this booklet
- Call **0800 316 2805** (8am–6pm Mon–Fri and 9am–5pm Sat)
- Visit **[www.warmfront.co.uk](http://www.warmfront.co.uk)**

You could be entitled to more benefits than you are currently getting. Find out by calling the Benefit Entitlement Check team on **0800 072 9006**.

## Cold Weather Payment

Cold Weather Payments are made during periods of very cold weather to help people pay for extra heating costs. To get a Cold Weather Payment, the average temperature where you live must be recorded as, or expected to be, 0°C or below for seven days in a row. You may be able to get Cold Weather Payments if you are getting Pension Credit; Income Support and have a pensioner or disability premium, or you have a child who is disabled or under 5 years old; or income-based Jobseeker's Allowance and have a pensioner or disability premium, or you have a child who is disabled or under 5 years old.

To find out more about Cold Weather Payments contact Jobcentre Plus or visit **[www.jobcentreplus.gov.uk](http://www.jobcentreplus.gov.uk)**

## Help from your energy provider

As part of achieving their carbon emission reduction targets, your energy provider has partnered with the Act On CO<sub>2</sub> campaign. A booklet with tips on how to save money and reduce your carbon footprint will be available this autumn.

## Other sources of financial support

If you're struggling to pay your energy bills, there are plenty of sources of help. Remember to contact your energy supplier, as they may be able to offer you a special tariff or payment plan to help you stay on top of your bills.

### Consumer Direct

Consumer Direct is a government-funded service that offers clear, practical and impartial information and advice on consumer issues.

Call **08454 04 05 06** (8am–6.30pm Mon–Fri and 9am–1pm Sat) or visit **[www.consumerdirect.gov.uk](http://www.consumerdirect.gov.uk)**

### The Home Heat Helpline

This is a free helpline that offers information on keeping warm, using energy efficiently, cheaper payment schemes and grants for insulating your home.

Call the Home Heat Helpline on **0800 33 66 99** (9am–8pm Mon–Fri and 9am–3pm Sat, minicom **0800 027 2122**) or visit **[www.homeheathelpline.org](http://www.homeheathelpline.org)**

## Energy Saving Trust

The Trust's local advisers provide free, impartial advice on making your home more energy efficient. They can also tell you about grants for implementing energy efficient measures that may be available in your local area.

Call **0800 512 012** (9am–5pm Mon–Fri) to speak to an adviser, or visit **[www.energysavingtrust.org.uk](http://www.energysavingtrust.org.uk)**

## National Energy Action

This charity campaigns for affordable warmth and better energy efficiency for people who are particularly vulnerable to the cold.

Visit **[www.nea.org.uk](http://www.nea.org.uk)**, email [info@nea.org.uk](mailto:info@nea.org.uk) or write to NEA, St Andrew's House, 90–92 Pilgrim Street, Newcastle NE1 6SG.

## Home Improvement Agencies

There are about 250 Home Improvement Agencies in the UK, which provide advice on repairs and home improvements to older and disabled people.

To find your nearest agency, call **0145 789 1909** (9am–5pm Mon–Fri) or visit **[wwwFOUNDATIONS.uk.com](http://wwwFOUNDATIONS.uk.com)**

## Citizens Advice Bureau

Your local bureau will be able to give you advice on benefits, heating, grants and debt.

Look under C in the Yellow Pages or visit **[www.adviceguide.org.uk](http://www.adviceguide.org.uk)** for more information or to find your local bureau.

## Local council grants

If you have a low income, your local council may be able to help you with home repairs and improvements, such as insulation. To find out whether you can apply for a grant, contact your local council.

## Benefit Enquiry Line

This confidential helpline provides advice on benefits for disabled people and carers. Call **0800 882 200** (8.30am–6.30pm Mon–Fri and 9am–1pm Sat, textphone **0800 243 355**).

## Grants and loans

If you are getting Income Support, income-based Jobseeker's Allowance or Pension Credit, you may be eligible for a community care grant, budgeting loan or crisis loan.

For confidential advice, call **0800 882 200** (8.30am–6.30pm Mon–Fri and 9am–1pm Sat, textphone **0800 243 355**).

# Getting ready for winter

We're all more likely to feel the chill in winter, but cold weather can lead to more serious health problems such as heart attacks, strokes or pneumonia. By staying warm, you can stay healthy and well. So if you aren't able to move around very much, it's vital that you find other ways of keeping warm and staying healthy.

## Preparing your home for winter

Insulating your home not only helps to keep it dry and warm, it will also help to keep your heating costs down.

### Top tips

- Fit draught-proofing to seal any gaps around windows and doors.
- Insulate your home – there are many ways to stop heat from escaping:
  - Make sure your loft has at least 10–11 inches (270 mm) of insulation
  - If you have wall cavities, insulate them too
  - Insulate your hot water cylinder and pipes.

For more information on installing insulation and to find an approved National Insulation Association (NIA) installer in your area who can arrange a free survey and quotation for your property and provide details of the grants available, visit the NIA website [www.nationalinsulationassociation.org.uk](http://www.nationalinsulationassociation.org.uk)

Alternatively call the enquiry line on **0845 163 63 63**.

## Staying safe at home

Incorrectly installed, poorly maintained or poorly ventilated cooking and heating appliances can give off carbon monoxide – a poisonous gas which you can't see, smell or taste but which kills more than 50 people a year in England and Wales. Low levels of carbon monoxide can cause serious harm to your health if breathed in over a long time.

## Top tips

- Have your cooking and heating appliances, flues and chimneys serviced at least once a year by a suitably trained, reputable, registered engineer.
- Fit an audible carbon monoxide alarm that meets European Standard EN50291.
- Keep rooms well ventilated when using an appliance, and stop using an appliance if you think it may be giving off carbon monoxide gas.
- If you suffer from symptoms like food poisoning, viral infections, flu or simple fatigue and think they could be caused by carbon monoxide, see your doctor at once and say you think it might be carbon monoxide poisoning.

To find out more about carbon monoxide safety, call the HSE Gas Safety Line on **0800 300 363** (8am–8pm Mon–Fri and 10am–4pm Sat) or visit [www.hse.gov.uk/gas/domestic/index.htm](http://www.hse.gov.uk/gas/domestic/index.htm)

For general health advice and information visit [www.nhs.uk/carbonmonoxide](http://www.nhs.uk/carbonmonoxide)

## Preparing yourself for winter

### Avoid catching colds or flu

As you know, colds and flu spread very easily. It's worth following these simple and obvious hygiene measures to reduce your risk of catching and spreading infections.

### Top tips

- Cover your nose and mouth with a tissue when you cough or sneeze.
- Throw away used tissues as soon as possible.
- Wash your hands regularly with soap and water.
- Stock up on over-the-counter cough and cold remedies.

### Get a free flu jab

Not only is flu unpleasant, but it can also be a serious health hazard – especially for those with long-term illnesses. You can get a free flu jab if you:

- have serious heart, lung or kidney disease or diabetes;
- have a weak immune system, caused by disease or medical treatment;
- have had a stroke or TIA (transient ischaemic attack);
- are aged 65 or over.

### Top tips

- If you feel unwell, call NHS Direct on **0845 4647** (24 hrs a day, 7 days a week) for health advice and information.

## Living a healthy lifestyle

You probably know that keeping yourself as fit and healthy as you can is important all year round. But your lifestyle can make even more of a difference when it comes to keeping well in winter.

### Eat well

Eating regular meals can help keep up your energy levels during winter.

### Top tips

- It's a good idea to plan your meals to keep your diet as varied as possible.
- Include plenty of hot food and drinks.
- Stock up on tinned and frozen foods, especially vegetables, so you don't have to go out too much when it's cold.

To find out more about healthy eating, visit the NHS Choices website at [www.nhs.uk](http://www.nhs.uk)

### Stay active

We all know that exercise is good for your overall health – and it can keep you warm in winter. If you can stay active, even moderate exercise can bring health benefits.

## Top tips

- If possible, try to move around at least once an hour.
- Remember to speak to your GP before starting any exercise plan.

A number of organisations are working to improve access to sports for disabled people – you can find out about these by visiting [www.direct.gov.uk](http://www.direct.gov.uk)

# Help and advice

## Disabled and Independent Living Centres

At these centres, you can try out products and equipment that could help you in your daily life.

To find your nearest centre, call **0870 770 2866**, email [general.info@assist-uk.org](mailto:general.info@assist-uk.org) or write to Assist UK, Redbank House, 4 St Chad's Street, Manchester M8 8QA.

## Disabled Living Foundation

The Disabled Living Foundation gives advice on equipment that assists with all aspects of daily living.

Call their helpline on **0845 130 9177** (10am–4pm Mon–Fri) or write to Information Officer, The Disabled Living Foundation, 380–384 Harrow Road, London W9 2HU.

## DIAL UK Scope

Disability Information and Advice Line (DIAL) provides information and advice on all aspects of living with disability.

To find your nearest advice centre, call **01302 310 123** (10am–4pm Mon–Thu and 10am–3pm Fri, textphone **01302 310 123**), email [informationenquiries@dialuk.org.uk](mailto:informationenquiries@dialuk.org.uk) or visit [www.dialuk.info](http://www.dialuk.info)

### Call charges

If you call from a BT landline:

**0800** and **0808** numbers are free

**0845** numbers cost maximum 5p a minute

**0870** numbers cost maximum 7.5p a minute

Calls from mobiles and other networks vary – check with your service provider.
