

# Learning disabilities

On October 15th 2008 Kathy Johnson, Robert Wilson, Rick Dartnail and Jason Terry went to the Bridgewood Manor Hotel in Chatham.

We were asked to talk to Medway GP's about learning disabilities.

Colin Guest and Bev Reid gave support.

Here is a picture of the training.

About 80 GP's were there.

We told them about providing good health care people for people who have a learning disability.

The training lasted about 2 hours.

Our talk lasted 30 minutes.

Autism  
and  
Asperger's

We think that GP's should have a lot more training about learning disabilities.

We said that they should also learn how to work better with people with autism and Asperger's.

Lots of the GP's said they would like to learn about autism and Asperger's.

We will give them that training.
